

Hello Messy Church,

Great to be back with you for another week. We trust you are all keeping well and we long for the day when we can all be back at Messy Church at All Saints, or High Cross. However, till then we shall continue to meet with the help of the internet.

This week we are looking at the Jesus calming a storm, but also Peter being able to walk on water as he saw Jesus doing. There are times when we can't explain what we are seeing, this is one of those stories for us in reading possibly and what the disciples saw happening. The outcome was that the disciples couldn't wait to tell everyone what had happened, and that Jesus must truly be who he said he was. **Please note - as we say on the video please explain to children this is something that happened when Jesus was there with Peter, and not something for them to try.**

If you would to make contact with us, then please do – we would love to hear from you. As the rules around lockdown are going through many changes as well, this can bring a sense of relief, as well as uncertainty at the same time. So if we can be praying for you, and those you are concerned about – then please ask.

Bye for now

Andy

1.A Messy Beach

You will need:

1 or 2 packets of blue or green jelly,
A few plain biscuits (maybe digestives)
Some jelly babies
Carrots to make fish
Anything else you can think of to make crabs, seaweed etc

What to do:

Make up the jelly as on the packet. Allow to cool and put in the fridge until it is set.
Crush the biscuits until they are as smooth as sand.
Put the biscuit crumbs into a glass container.
Chop up the jelly and put it on top of the biscuits.
Add some jelly babies for swimmers.
Add carrot fish and anything else to look like sea weed and sea creatures.
Have fun!

2 Prayer Fish (This is what we made last week. Please feel free to make them this week if you would like to)

Take time over the coming week to make your fish as colourful as you can with the wrapping you can use. We shall be using it next week!

3.Origami Boat

Paper Origami is the ancient Japanese art of paper folding dating back as far as 905-1025AD and it has been passed down from generation to generation ever since.

You will need:

Cut your paper into a square, around 12 cm by 12 cm. Cut it in half so that you have two triangles. Now follow the instructions on the step-by-step from our video. Here is a printed version for you as well.

3. Video

A video to retell the story this week
